

## Hospitality/Common Space

**EQUIPMENT ROOM.** An MH10 Merger Hub ties all the Common Area A-Net jacks into the system. Inline POA-80s provide power to the F6 wherever it is connected.

**STAGE DROP BOX.** With an Aviom F6 encased in an SK6 Stage Kit, the stage drop box is outfitted to provide 16 mic/line inputs and 8 analog outputs. It can be connected to the system through any open A-Net jack.

**MIX POSITION.** An LS9 equipped with a 6416Y2 A-Net® Card can be connected to the system through any open A-Net jack in the Common Area.
