

Corporate Event

FRONT OF HOUSE. An M7CL equipped with three 6416Y2 A-Net Cards provides I/O and control of up to three drop boxes.

STAGE DROP BOX. With an Aviom F6 encased in an SK6 Stage Kit, the stage drop box is outfitted to provide 12 mic/line inputs and 8 analog outputs.

STAGE RACK. To expand the system with additional drop boxes, move the POA-80 Power Supplies to a rack, along with an MH10 Merger Hub. Stage boxes can be placed anywhere needed.
